THE HACK IN THE HARBOUR

The first all-bitless hack from CastleHorses!

'What was going on in the harbour?'

It was the talk of the village on Saturday night, 'what were all the horses and ponies doing down in the harbour?' It's a shame you weren't all there to claim your piece of fame as Tom described the first **all-bitless** hack from CastleHorses with ponies and horses, kids and adults, on both. NINE horses and ponies and not a bit between them, what a wonderful sight!

Fair play to Charlotte for hacking home after she got an unexpected dip from Maia - no bother to you Charlotte!

It was lovely to see Yogi, the old man of the gang, having great fun in the water - well done Kayla. Katie McG and Felix were a great lead to get Max going for Aideen and Anna and Madison certainly put pedal to the metal coming home on their canter turn - wow! We were all glad to see Molly and Capall, no worries about whether he'd canter or not with Molly on board! And aww...didn't Teddy bear look gorgeous with his new hair-do - he was flying for Kate H.!

And here - Charlie was moving, lads! Fair play to Stephanie, the two of them looked brilliant.

Tom was on the newest CH horse, Tex, who joined Charlie, Yogi and Felix being not just bitless, but barefoot as well - four completely 'iron free' horses, the first of many, we hope.

Fiona and her team (Oisín and Megan) were brilliant back up and the hack home went off perfectly as well. Congratulations one and all!
